Sub.: Online Training on "Digital Wellness" from 2nd-6th October 2023, 4.00 p.m. - 5.00 p.m. - reg.

In today's digital era, cultivating awareness of Digital Wellness is vital for our technology-driven society. It safeguards both our mental and physical well-being and fosters a harmonious relationship between humanity and technology, ensuring a brighter and more balanced future. Digital Wellness emphasizes a healthy balance between online and offline life, promoting responsible screen time management, digital literacy, and ethical online conduct. By prioritizing Digital Wellness, we can also mitigate the adverse effects of technology, such as cyber bullying and addiction, and ensure that our digital experiences enhance our life rather than detract from it.
